Founded in 1999, LABUSA manage and deploys enterprise cloud computing solutions. From deploying turnkey cloud technology to designing integrated hybrid platforms, LABUSA offers the flexibility and expertise needed to move IT to an “as-a-service” model. Infrastructure as a Service (IaaS) and Software as a Service (SaaS) is the core cloud offerings. Our solutions address the issues dealing with the complexities, investment, and support of the IT infrastructure. Clients are federal and local government and small to large companies across various industries.
